Further, each CPC must have the requisite infrastructure for holding smooth paddy procurement operation and equipment like e-PoP machines, moisture meters, electronic weighing machines(dulycalibrated), computer (desktop/laptop) etc., to facilitate procurement of Fair Average Quality (FAQ) common paddy. In case the paddy is not lifted by the Rice Mills in time, adequate facility for temporary storage within the premises of the CPC must be identified to prevent any damage of the procured paddy. Each CPC must have a proper hoarding, displaying all relevant information for the farmers including FAQ paddy, MSP, documents required for registration etc.
